Training Updates

New Learning Management System (LMS)

- VPRA/OSP is no longer using the RosterTech learning management system.
- What Has Changed
 - Historical data access - Training profiles and full historical transcripts will still be accessible until at least January 28th by [logging into RosterTech](#)
 - How to access training that was hosted at that site
 - Environmental Health & Safety (EHS) related courses are still currently hosted on RosterTech, but will be transitioning by the 28th to the [Genius LMS](#) training platform.
 - RosterTech will no longer be used for RCR Workshop registration and completion records. Starting in 2022, the [Genius LMS](#) training platform will be used for managing RCR Workshop information.
 - For information about attending the January 2022 RCR Workshop sessions and for updates about the transition, refer to <https://rcr.gatech.edu/workshops>

EDR Processing

- Any EDRs that are saved but not submitted post GL-processing will be deleted overnight.
- Once an EDR is approved by all level approvers, it is ready to be processed.
- BORDBEUPD process posts funding changes to the Department Budget Table and Job Data and releases the lock on the record.
- Process runs in batch daily during the following times:
 - 5:00 a.m.
 - 9:00 a.m.
 - 1:00 p.m.
 - 5:00 p.m.

EDR Justifications

New Distribution

A screenshot of a software interface showing a dropdown menu titled "New Distribution". The menu is open, displaying a list of options: Clerical, DistPerct, EndGrant, FYE Adjust, FringeTax, FundingSrc, GrantLate, Other, Overspent, and PositionFu. The "Clerical" option is highlighted with a blue background. Below the list is a small box with a downward-pointing arrow, indicating the menu is active.

- **Clerical:** Typos or mis-keyed entries (e.g. GR10005560 vs GR10005660). An overlooked expense is not a clerical error.
- **GrantLate:** Expenses to be charged to a forthcoming grant should be parked on an Undesignated worktag or an advance worktag and not another grant.
- **Other:** Requires detail. "To correct an error" or "To transfer to correct project" are insufficient.
- **Overspent:** An overrun on one grant should not be transferred to a different grant for the purpose of resolving the former's deficit.
- **PositionFu:** EDRs that correct a recent position funding change should have a matching CPF submitted as well.

EDRs and late cost transfers should not be used as a means of managing awards

> 90 Day EDR Justification

- **Only applies to EDRs when moving salary onto a grant (e.g. 03GR00000000)**
- **Complete transmittal form with detail explanations**
 - Found on [Budget Office Website](#)
- **Common reasons to exceptions**
 - Initial or continuing sponsor funding delayed beyond 90 days.
 - Specific approval received by sponsored agency
 - Transfers to cost share or between grants within the same award

A few slides on Participant Support Costs

Participant support costs are direct costs for items such as stipends or subsistence allowances, travel allowances, and registration fees paid to or on behalf of participants or trainees (but not employees) in connection with conferences, or training projects ([2 CFR 200, Subpart A, §200.75](#)).

Participant Support Costs are only allowable with prior approval of the federal awarding agency ([2 CFR 200, Subpart A, §200.456](#)).

Grants and Contracts Accounting

- Since Participant support is not subject to F&A charges it is important to set up a grant line specifically for participant costs that has a zero rate.(G&C will set up the grant line)
- If you have separate activity budgets you may want separate grant lines to help better manage them
- Revisions to participant support budgets almost always require sponsor approval.

Grants and Contracts Accounting

- Examples of Participant support
- Undergrads from developing nations attend a summer institute at GT to learn about engineering. Travel, lodging and subsistence allowances are provided throughout the 6-week training institute.
- An NSF-funded conference will be hosted on the GT campus. Twenty graduate students from across the US will be invited to attend. The students' airfare/transportation, lodging and per diem will be covered by the grant.

Grants and Contracts Accounting

Participant Support Costs vs. Human Subject Payments		
	Participant Support Costs	Human Subject Payments
Supports non-employees while participating in sponsored project funded conferences, workshops, and training activities	X	
Provides compensation or incentives to individuals serving as subjects in research studies		X
Requires prior approval from the awarding agency	X	X
Requires an approved IRB protocol		X

Setting up a new service center

Andrew Chung

Service Center Accountant, Grants and Contracts

Getting Started On Setting Up New Service Center

- Fill out the new service center request form as well as the budget template to initiate the request.
- Identify the specific types of services that the service center will offer to its customers. (e.g.) equipment usage, consulting etc.
- Identify the spaces (building & room#) that will be used for the center.
- Identify the personnel (name & employee ID) that will be working in the service center and what % of their time will be dedicated to it.
- Identify equipment (inventory tag ID) that will be used in the center.
- Estimate direct costs such as salaries, R&M, supplies etc.
- Estimate the # of units of each service you will sell as well as what you want to charge for each service.

Next Steps For Setting Up New Service Center

- Once the New Service Center Request form and the budget template have been filled out, the Service Center Accountant will work with the representative on completing new rate study.
- Once the new rates have been established and approved by both the requesting department and G&C, the official rates will be updated on the G&C website and the center can start charging out for those rates.
- The new service center should have a DSS and a companion worktag set up where revenues & expenses can be posted to. The budget office can set them up.
- The service center must track usage and report it on the SCARV during the SCARV review process.
- Reach out to SUMs team if you want to use SUMs to track usage.

Fringe Rates

Jonathon Jeffries, CPA

Director of Cost Accounting

Fringe Rates (4) at Georgia Tech

- **Full Benefits** – Regular full-time faculty and Staff, Part-time Employees at least 75%
 - Social Security, \$25,000 Life Insurance, Health Insurance, Retirement (ORP or TRS), Non-Payroll Fringe (which includes Terminating Vacation Payouts, Retiree Health and Life Benefit, Workers Compensation, Unemployment Insurance and payments to ERS)
 - Retiree Benefits, Workers Compensation, and Unemployment are allocated to GTRI and paid quarterly
 - **New for FY22 Campus Transportation Costs** (GTRI to includes costs in GTRI Admin Study)
 - Note: GTRI includes a miscellaneous fringe component for Employee Recognition, Relocation, and Tuition
- **Limited Benefits** - Part-time Employees at least 50%, but less than 75%
 - Includes all benefits in Full Rate except Health and Life Insurance
- **Partial Benefits (Medicare Only)** – Part-time Employees less than 50%, Extra Comp
- **Graduate Student Health Benefit** – GRA and GTA Only
 - Health Insurance Subsidy provided by the Institute

Graduate Assistance and Student Employees – No benefits provided

Rate Proposal Process

- Resident Instruction (RI) and GTRI submit two fringe proposals annually
 - RI submits an Actuals Study by September 30th
 - GTRI submits an Actuals Study by December 31st
 - Both submit a **Projected Study by April 30th**
 - DCAA audits each proposal for RI annually
- Quarterly Analysis is done to track projected rates during the Fiscal Year
 - RI has Fixed with Carryforward Rates and includes an over/under recovery from a prior closed Fiscal Year
 - GTRI is required to have rates track within 5% of projection or rates are adjusted at year-end
 - Budget Office uses analyses to track Institute required funding, GTRI uses to pay shared benefits
- **Projections** are prepared using 3rd quarter data and any additional information
 - When possible actual rates from the last closed fiscal year (FY20); this allows for an approval from ONR in a timely manner to meet the first payroll of the new Fiscal Year
 - Adjustment may be made for changes in TRS rates, known changes in health premium, or components that are not tracking to a trend
 - Costs are determined by applying projected rates to projected salary but focus is on the rate, not dollars

Reminder - Security Roles for Grant Worktag

- It is very important that Resident Instruction grants have a PI and a Grant Manager assigned. Missing roles could block an invoice from being routed.
- The Grant Manager should not be the same as the Grant PI. The approval routing will be incomplete without two different users in these roles.
- Our Project Accounting team and system team are constantly monitoring these security roles to ensure the grant manager and grant PI are correctly assigned. Your support may be needed to identify the proper users for assignment.
